PRELIMINARY AMENDMENT

Dear Sir:

Prior to examining this patent application, please enter the following amendments.

AMENDMENTS

In The Claims

Please cancel claims 1 - 54 without prejudice or disclaimer of the subject matter recited therein.

Please add the following new claims:

55.   A computer program product encoded in computer readable media, the computer program product comprising:

first instructions, executable by a processor, for receiving input information regarding damaged vehicle components for at least one vehicle;

second instructions, executable by the processor, for categorizing damage zones with respect to the location of the bumper of a vehicle;

third instructions, executable by the processor, for categorizing at least one damaged vehicle component with respect to its location on the vehicle; and
